#WhatWillYouCreate?™

Stencils

Let's doodle

enjoy today

Love this

You're awesome

doodle all day

everyday life

Get Creative!

Step 1:

Print out your own design or any design from the stencil and cover it up with clear tape
Step 2:

Doodle the outline of the stencil. Use FLEXY™ for a better quality

Step 3:

Doodle another layer on top after outlining the stencil
Step 4:

Color in the spaces but do not let it touch the paper to create space

Step 5:
Keep doodling layers until it is around 0.5cm thick

Step 6:

Create a base to hold the stamp using PLA. At least 0.5 bigger than the actual stamp

Step 7:

Stick the top part of the base and the the stamp leaving the flat surface free. Use FLEXY™ for it to stick better

Step 8:

Make sure the flat part is evenly straight

Step 9:

Get your stamp pad ready and start stamping!
