

## Stencil

## Step 1:

Print out the stencil and cover it with clear / masking tape.

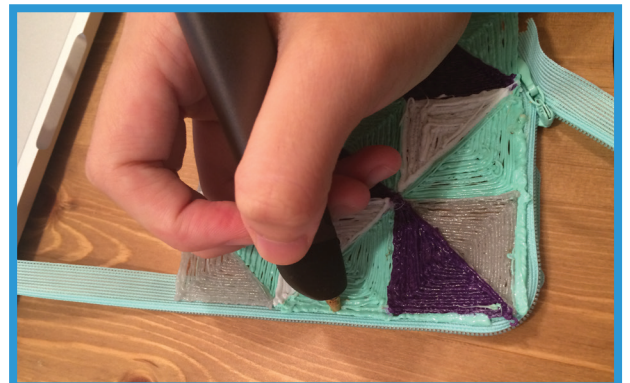

## Step 2:

Create your own design using any FLEXY™ color.

## Step 3:

Once you are happy with your design, it should look something like this.

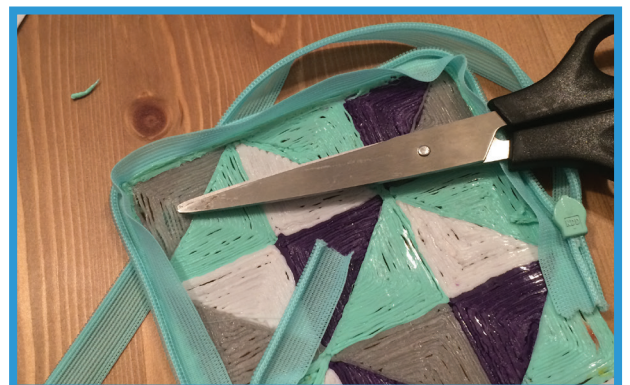

## Step 4:

Unzip the zipper and doodle the outline of skin with the zipper

## Step 5:

Turn the skin that you designed and doodle the outline as followed.

## Step 6:

Once it is in place, you can cut the remaining zippers. (Remember to doodle a stopper on the end of the zipper so that the puller does not come off)

Step 7:

Zip back the zipper then fold the skin of the pouch then doodle the outline so that it stays in place

Step 8:

On the ends of the zippers, create a stopper

Step 9:

If the zipper does not stay in place, you may doodle over the inside of the zipper as followed
