

#WhatWillYouCreate?™

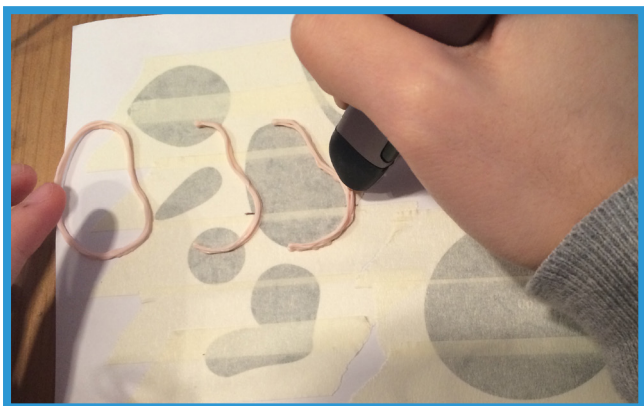

Easter Bunny

Final

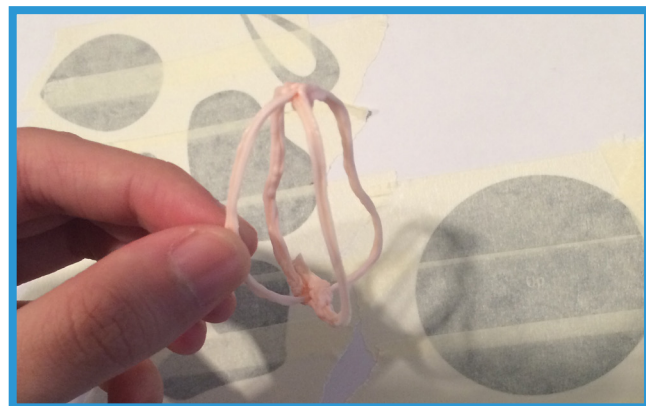

Create your very own Easter Bunny to get you on the mood for the holiday. Happy Easter!

Easter Bunny

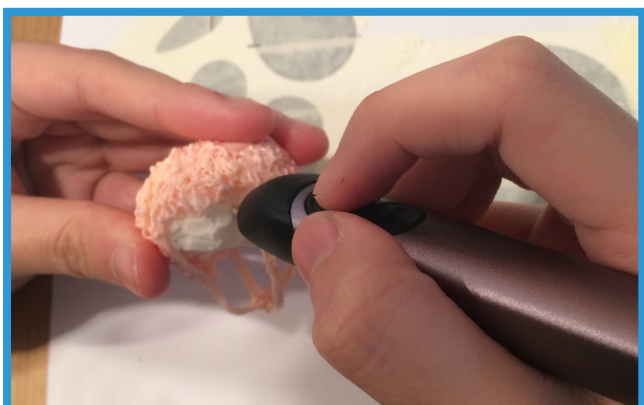

Step 1

Outline the body of the bunny and outline two more half bunny body.

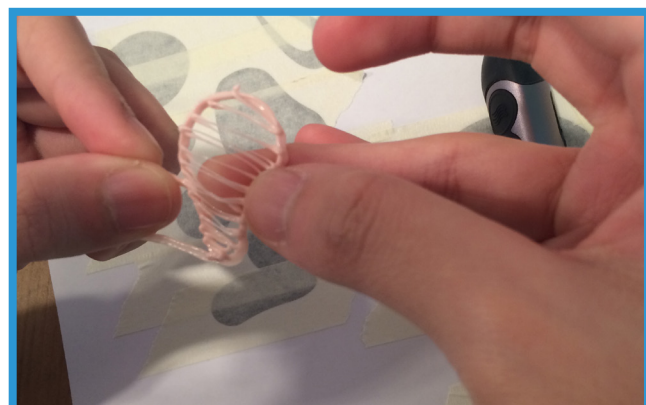

Step 2

Connect the two half to make a 3D version of the body.

Step 3

Use tissue ball to get the curve surface of the body.

Step 4

You may leave the tissue inside or once you are 70% done, take the tissue out by wetting the body with water.

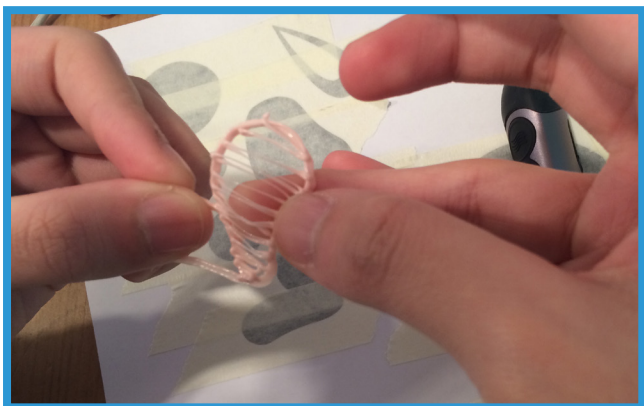

Step 5

Next, outline two side of the feet

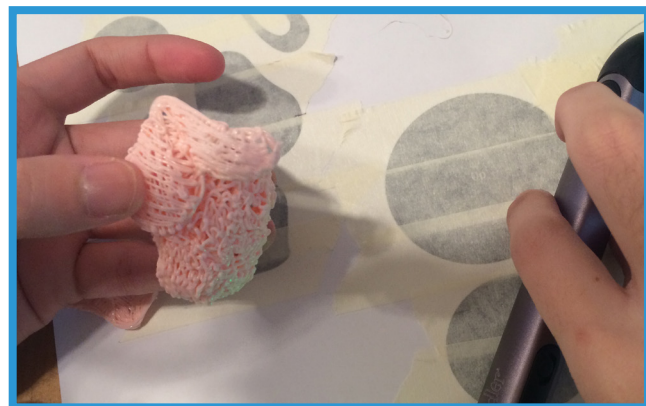

Step 6

Roughly fill in one the leg

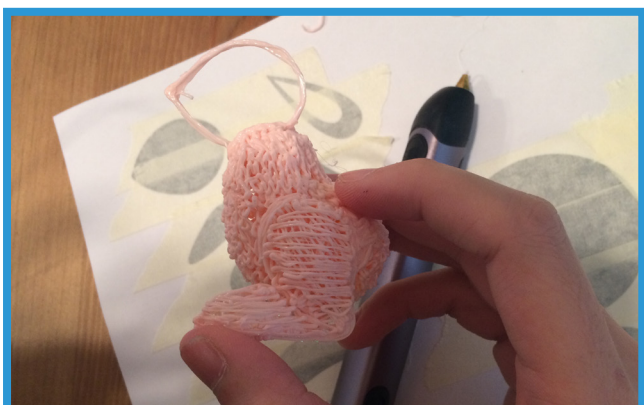

Step 7

While it's still warm, use your hand to push out the doodle to create a curve effect for the legs. Repeat step 6 and 7 on the bunny's feet.

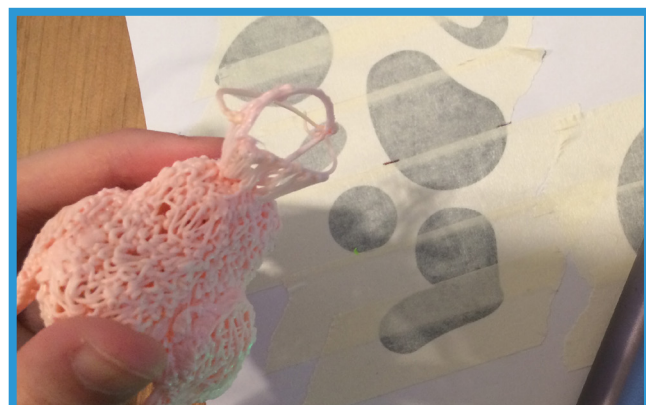

Step 8

Stick in both legs on the side of the bunny's body.

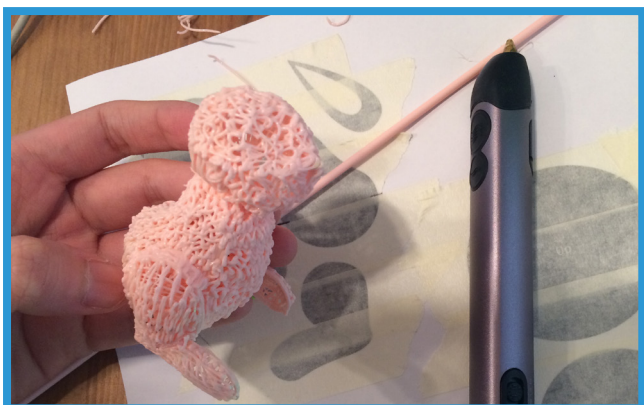

Step 9

Outline the head of the bunny and stick it on top of the body.

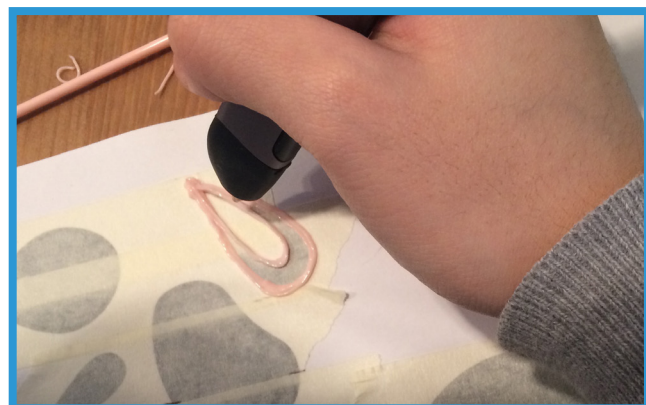

Step 10

Doodle two more half done head and connect it on the side of the head.

Step 11

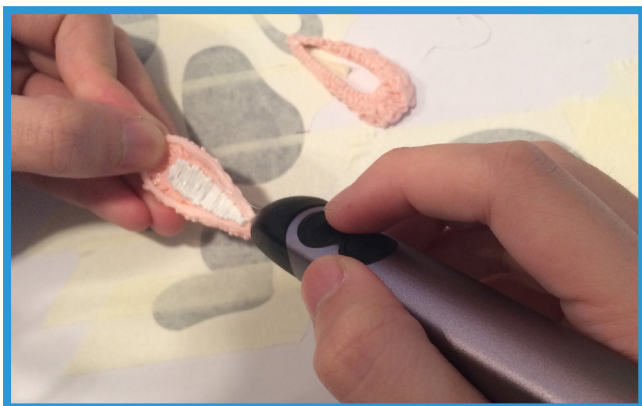

Fill in the head. You may use tissue to help you create a ball shape or use your hand to curve the head when it is warm.

Step 12

Outline the outer part of the ear. Leave the inner part of the ear for later.

Easter Bunny

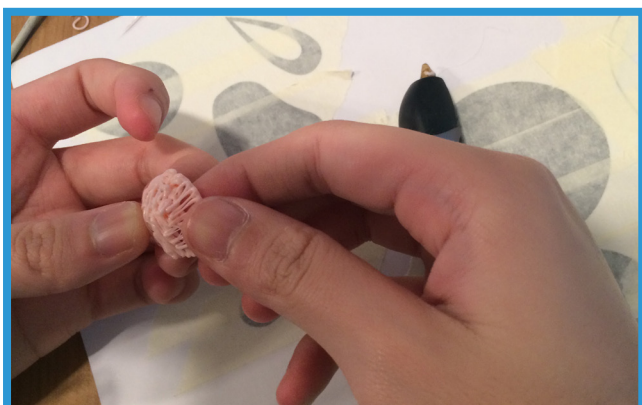

Step 13

Using the other side of the ear, use Polar White and fill in the inner part of the ear

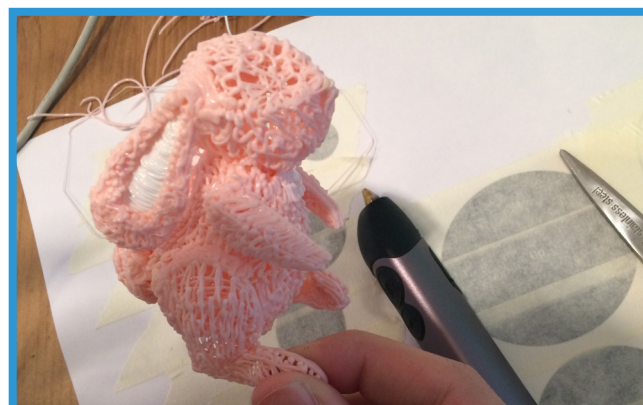

Step 14

Stick the ears on each side of the bunny's head.

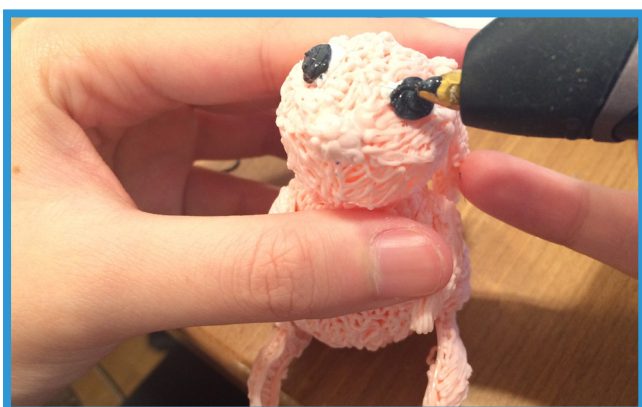

Step 15

Next, outline the tail, and arms and repeat step 6 and 7.

Step 16

Stick the tail on the lower back of the bunny and the arms on each side right on top of the bunny's legs.

Step 17

And lastly, add details.
