

Final

Create your very own Easter Egg to get you on the mood for the holiday. Happy Easter!

Easter Surprise Egg

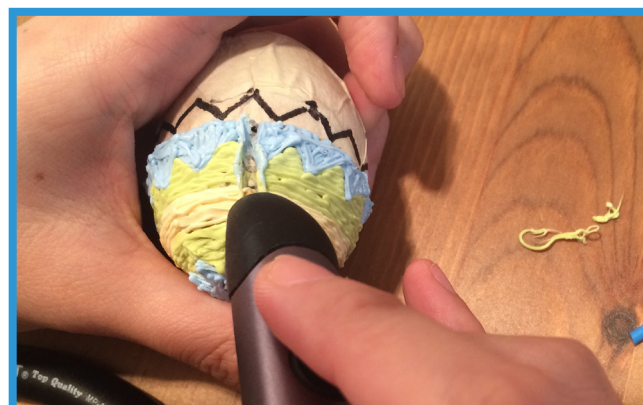

Step 1
Grab a boiled egg and wipe it with tissue paper

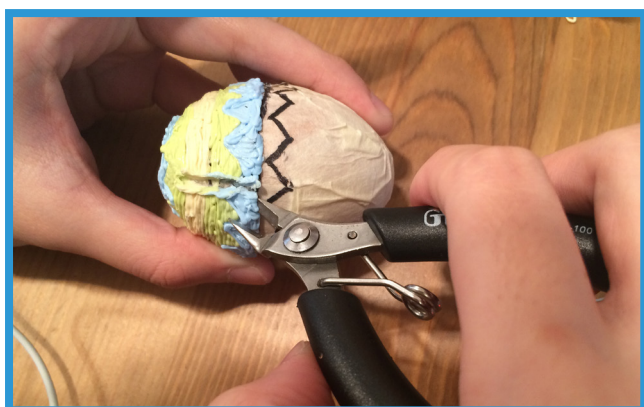

Step 2
Wrap the egg with masking tape and mark the opening of the egg by drawing a line.

Step 3
Draw out your design for the bottom part of the egg and start doodling it.

Step 4
Once you are done with the bottom part of your Easter egg, melt out a small line to be able to take your doodle off the egg.

Step 5
Use a nipper to loosen up your doodle.

Step 6
Then carefully take out the bottom part of your Easter egg.

Easter Surprise Egg

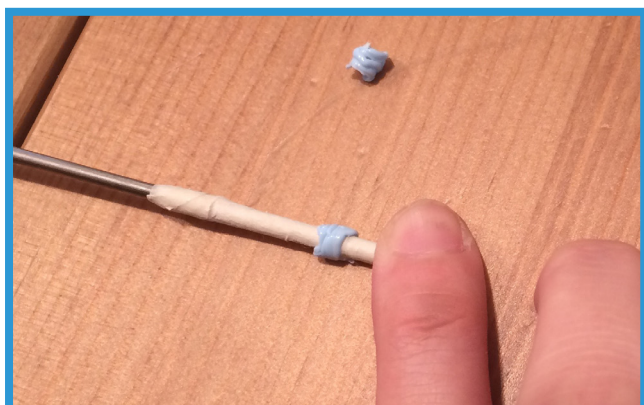

Step 7

Next, trace out your design of the top part of your Easter egg and doodle it.

Step 8

Repeat Step 4-6 on the top part of your Easter egg.

Step 9

To create the handle, tape your unblocking tool and roll it.

Step 10

Create three of these handles. They should be able to fit one plastic strand.

Step 11

Stick one of the handles on the top part of the egg.

Step 12

Carefully melt the two sides of the strands so that the plastic strand won't move.

Easter Surprise Egg

Step 13

Then stick the other two the sides of the middle on the bottom part of the egg.

Step 14

Cut out the excess strand.

Step 15

Doodle one more layer in the bottom of the egg.

Step 16

Carefully use your hand to create a flat surface for your Easter egg to stand.

Step 17

And lastly, tape the bottom part of your Easter egg with masking tape and doodle 0.2 cm more on the top part your Easter egg to cover up the space in between.
