

Final

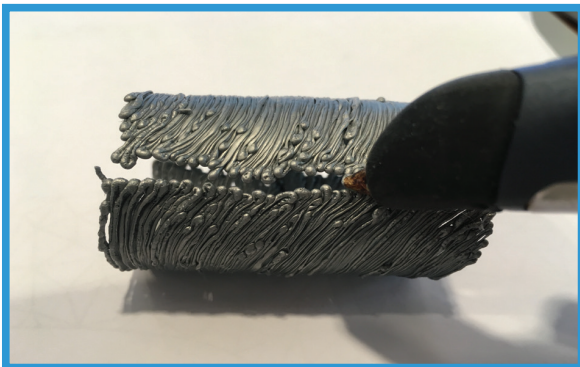

Step 1:

Find a cylinder or tube and tape the surroundings. Afterwards, Doodle over half of the cylinder. Repeat this step until you have 2 halves.

You should have something like this.

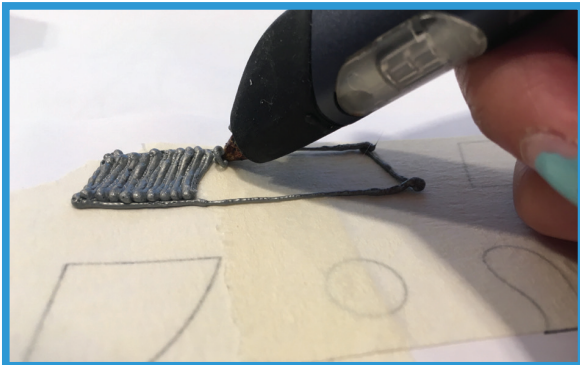

Step 2:

Join the two pieces together.

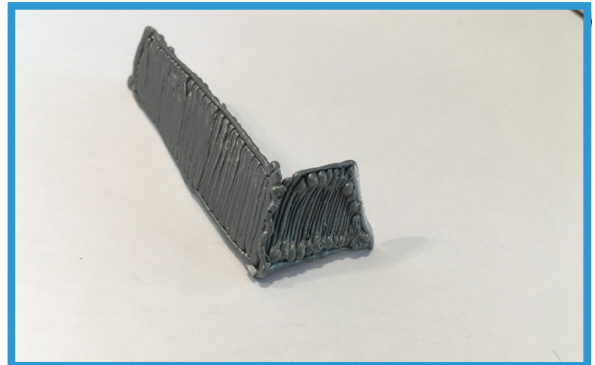

Step 3:

Similar to Step 1 & 2, find a ball and doodle around half of it. Join the pieces together. Leave a hole in the middle at the back.

Step 4:

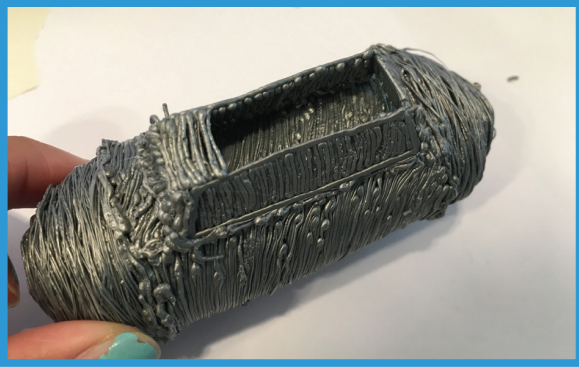

Trace over the remaining stencils.

Step 5:

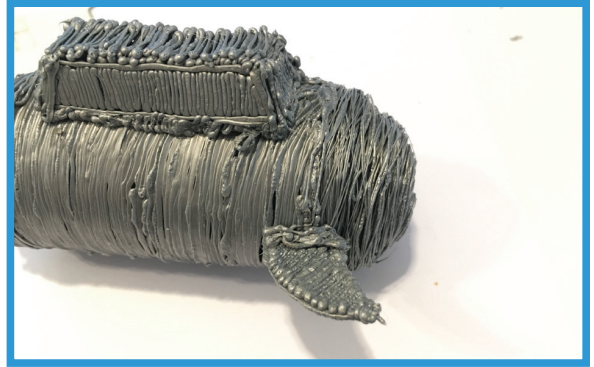

Join the roof pieces together.

Submarine

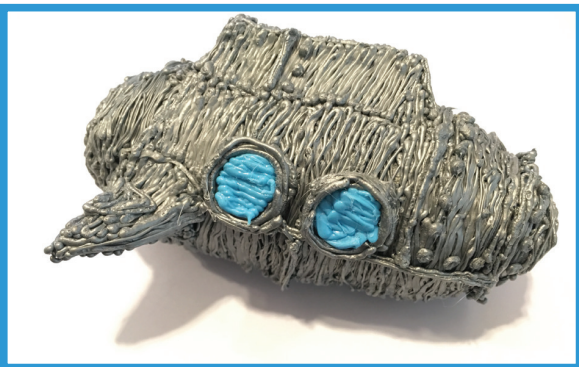

Step 6:

Put the joint pieces on the top of the body of your submarine. And freestyle the roof.

Step 7:

Put your traced fins at the side of your submarine at the back

Step 8:

Then, put your traced windows on the side of your submarine

Step 9:

You may decorate your submarine by adding the tube and propeller, or anything you like. You can attach the strands with a base so the submarine will be in the water, or just leave it so it'll be floating.
