Pocket Pinball
Pocket Pinball

Step 1:
Get a small spring (a spring from a pen is perfect), then doodle the two ends. Make sure it doesn't fall off!

Step 2:
Measure around your spring and doodle 2 rectangles and stick them together in the shape of an L.

Step 3:
Doodle it together but make sure the spring is only mended at the top. Also make a handle so that you can pull it easily!

Step 4:
Doodle one of these to fit your spring to move freely.

Step 5:
Trace the stencil and fill it in.

Step 6:
Doodle long pieces but make sure its width is thicker than the bead you will be using. You can use these as dividers and also to frame around your pinball doodle.
Step 7:
Mend it into place make sure the springy doodle is not mended together with anything. It should be able to freely move around.

Step 8:
Use the Strands of doodle to surround and frame the whole doodle.

Step 9:
Make your own game! But doodle the points of any writing before you doodle the dividers.

Step 10:
Cut small pieces of plastic strands make sure it is shorter than the size of the bead.

Step 11:
Trace around the doodle on a piece of acetate.

Step 12:
Put the beads in and mend the acetate and the doodle together!
